FOR IMMEDIATE RELEASE
February 6, 2026

Hailey Public Library Seminar

The Idaho Dark Sky Alliance (IDSA) invites the community to an evening of learning and stargazing featuring guest presenter Dr. Charles Law. Join us at 5:30 p.m. Saturday, March 7, at the Hailey Town Center West, followed by an outdoor stargazing session at the Sawtooth Botanical Garden.

Dr. Law will present an engaging talk exploring A Revolution in Planet Formation: The ALMA Era and Beyond. His presentation will offer attendees the opportunity to deepen their understanding of the universe before heading outdoors to experience the night sky firsthand.

Following the talk at 7:30, there will be a guided stargazing night at the Sawtooth Botanical Garden. AmeriCorps Night Sky Conservationist Leah Rogers, Dr. Law, and local astronomers will lead observers in identifying stars, planets, and seasonal constellations, alongside telescope viewing available as weather conditions allow.

To enhance your viewing experience, be sure to bring a warm winter coat, boots, gloves and a hat to stay warm. While the winter night sky can offer exceptionally clear views, stargazing is weather dependent. If conditions are unfavorable, updates will be posted on the Idaho Dark Sky Instagram and Facebook pages prior to the event.

The Seminar and stargazing are co-sponsored by the Idaho Dark Sky Alliance, Hailey Public Library, Sawtooth Botanical Garden, and Boise State University. Hailey Public Library is located at 7 W Croy Street in Hailey, and the Garden is located at 11 Gimlet Road, off of Hwy. 75 south of Ketchum.
